## WHY BROADWAY

- Socioeconomic trifecta. Broadway is SDVOSB, HUBZone, and 8(a) Graduate (grandfathered into the GSA MAS Competitive 8(a) pool through Feb 2027). One vendor that satisfies multiple small business goals on a single award.
- Built for the R&D mission. We run a 10Gbps DoD research network across four ERDC campuses, a 138-site HPCMP CSSP serving ~35,000 hosts, and Azure IL4 R&D enclaves with maintained ATO — eleven years with zero negative past performance findings.
- IT that enables science, and science delivered directly. The same firm that runs the ERDC RDE at 99.9% uptime also delivers competitively awarded R&D under NAICS 541715 for ERDC's Environmental Laboratory.
